

**Please click [here](#) to report potential H2B fraud or abuse**

Guam is unique in the fact that the Governor of Guam has been granted certifying authority for Temporary Labor Certifications issued in Guam. To protect this very valuable authority, the Government of Guam has promulgated rules and regulations to protect against abuse and fraud. The Alien Labor Processing & Certification Division (ALPCD) was created to oversee the employment of H-2B workers in Guam and monitor employers of such workers.

The division has four major functions:

1. To review, receive, process and adjudicate applications for Temporary Alien Labor Certifications for Guam.
2. To register all H-2B workers entering Guam evidenced by the issuance of an H-2 ID Card
3. Conduct monitoring, surveillance and investigative activities to prevent violations of the Rules and Regulations.
4. Compile and maintain records and statistical data.

ALPCD is currently evolving in anticipation of a dramatic increase in construction activities in the next few years. This web page is intended to help assist employers and the general public understand the program and what our objectives and goals are now and in the future.

To the left, you will find our navigation buttons, which cover various topics such as labor certification, fraud and abuse, compliance and many others in the future.

Please visit the site often, as we will strive to have updated content posted on a regular basis.
